MGI Success Story

Jones and Kolb (J&K), a 40 person Atlanta, Georgia firm joined the MGI association of international accounting firms in 2004. J&K's primary objective in joining MGI was to have access to a worldwide network of firms to enable J&K to provide seamless services to clients who operate not only in the USA, but also in other countries. J&K has been very active in the association and has close contacts and business relationships with member firms throughout the world. What follows is one example of the many benefits of MGI membership and how it was able to bring value to MGI's Canadian member and to J&K.

In late 2008 J&K was requested to propose on the financial statement audit of Wendy's National Advertising Program (WNAP). During the process, WNAP management enquired about J&K's familiarity with Canadian GAAP, since one of the entities to be audited was a Canadian entity. WNAP was prepared to request separate proposals for the engagement of this entity. However, because of J&K's membership in MGI, requests for proposals weren't necessary. J&K was retained to provide audit services to the Canadian unit by working closely with Weiler & Company, the MGI Canadian member. Engagement shareholder Bliss Jones contacted Dennis Weiler and they coordinated the Canadian portion of the audit field work to be performed by J&K with Weiler & Company signing off on the audit report.

MGI-North American Conference

on May 14th & 15th, 2009 in our Nation's Capital.

See MGIWorld.com for more details.
